

CareConnect Screenshot

The screenshot shows the CareConnect eReferrals web application. The browser tab is titled "New HealthLink Forms (HEALTHLINK (HLK))". The page header includes the CareConnect logo and a "Continue" button. A search bar contains the text "Auckland Regional Public Health Notificati".

On the left side, there is a scrollable list of medical specialties:

- Acute Admission
- Addiction Services (Regional Service - WDHB)
- Advance Care Plan
- Allied Health
- Auckland Regional Public Health Notification
- Audiology
- Breast
- Cardiology
- Cardiothoracic (Regional Service - ADHB)
- Dermatology
- Diabetes
- District Nursing
- Endocrinology
- Epsom Day Unit (Regional Service - ADHB)
- Falls prevention: Community Group
- Falls prevention: In Home
- Fertility (Regional Service - WDHB)
- Gastroenterology
- General Medicine
- General Surgery
- Genetics (Regional Service - ADHB)
- Green Prescription
- Haematology
- Healthy Homes (Regional Service - ADHB)
- Immunology (Regional Service - ADHB)

On the right side, there is a "Referred for" field and a "Notification" field. Below these fields is an "Update Referral" section with the following text:

Update Referral
Please note that patient address, medication, and condition changes since the initial referral was submitted are NOT updated when completing an addendum.
If your patient has had recent changes to these, please create a new referral rather than an addendum.
Click here to view referral status or provide additional information for an existing referral.

Reasons for update:

- Review of priority
- Response to information request
- Referral cancellation
- Other referral update
