

Testsafe screenshot

The screenshot shows the CareConnect TestSafe interface. The top navigation bar includes 'CareConnect TestSafe', 'CareConnect Documents', '#Visits', and 'Xero'. Below the navigation bar, there are search and filter options: 'Showing all documents', 'View By Category', and 'Look For'. A sidebar on the left lists document categories: 'Documents Information', 'Clinical Reports and Management Plans', 'Clinic Letter (1)', 'Discharge Summaries (11)', 'eReferrals (7)', 'Archived (4)', 'Completed with Outcome (2)', 'New (1)', 'Tue 11:52 Auckland Regional Public H', and 'Operation/Procedure Reports (2)'. The main content area features a heading 'Important Information for CareConnect Document Users' followed by three paragraphs of text explaining the electronic data and the combination of documents from four Northern Region hospitals. At the bottom, there is a table with contact details for DHB.

Important Information for CareConnect Document Users

The information displayed is the electronic data of the patient in what is essentially the secondary care view. However, it does not represent a complete record of all data produced by the patient has received. Work is ongoing to improve the amount and quality of data available.

The documents, images, laboratory, radiology and dispensing information is a combination of the ones the 4 Northern Region hospitals (Auckland, Counties Manukau, Waikato) currently produce and are able to share regionally via this mechanism, and the community funded information other than if the patient has chosen to opt off sharing into this system.

To obtain a complete electronic and paper copy of the hospital record - please contact the patient information service at each of the hospital.
