

9 March 2020

Welcome to the 2nd session of the CME 2020 series.

This session is:

Best Start Pregnancy Assessment Tool

We will show you the tool built by your local GPs in consultation with local and national experts to enable high quality evidence based decision supported care for women presenting to primary care in early pregnancy. This tool will be available to you soon to upload on your PMS and use for all women presenting in early pregnancy.

Presented by: Dr Christine McIntosh

**Thursday 19th March 2020
Manukau Super Clinic
6-8pm**

Programme:

- 6.00pm Registration & Nibbles
- 6.30pm Presentation
- 8.00pm Close

Please note that the programme closes at 8.00pm and to leave beforehand causes significant disruption to the speakers. Please also turn mobile phones to silent.

Please email response to Suz by email on slockett@cmdhb.org.nz

Please note this invitation is being sent by email. Those who have not registered their email address with Suz please do so in order that you do not get missed off the invite list in the future.
