

COVID-19 suite

Please see our [COVID-19 pages](#) for the latest guidance.

[COVID-19 Practice Preparation](#): Resource page that helps general practices prepare their COVID-19 response.

[COVID-19 Assessment and Management](#): Provides guidance for clinicians on assessing and managing patients presenting with possible COVID-19. This page also includes the Auckland Regional Primary Care Algorithm and POAC funding model.

[COVID-19 Requests](#): details the notification process, testing and self-isolation advice, contact numbers for advice, and funding and claiming information, and hosts the data entry tool for centralised management of PPE.

[COVID-19 Information](#): Resource page that helps users navigate to relevant COVID-19 information. The [online registration for employment opportunities](#) in fighting COVID-19 is also on this page. This page has links to National resources such as the latest MOH COVID case definition, MOH resources for Health Professionals, and the NZ resuscitation council's [COVID-19 modifications to Essential Life Support](#).

[COVID-19 Recent Changes](#): Summarises COVID-19 updates for HealthPathways.

Important Pathway Updates

[Oral Health \(B4 School Check\)](#)

[Influenza](#)

[Post Menopausal Bleeding](#)

[Dysmenorrhoea](#)

[Weight Management in Children](#)

[Abortion](#)

[IV Iron Infusion](#)

[Chronic Abdominal Pain in Children](#)

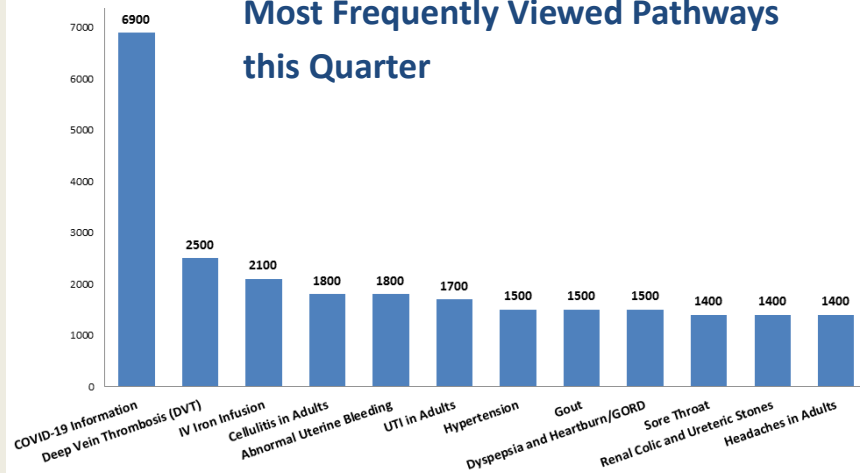

[UTIs in Pregnancy](#)

[Analgesia in Children with Acute Pain](#)

Fax free

Many departments across the three DHBs are going fax free. Check Request pages for information, especially in situations when you would previously have faxed your referral.

Most Frequently Viewed Pathways this Quarter

Please see our [COVID-19 Impact on Local Services](#) pathway for updates on service changes. This page provides specific information about DHB department changes and other service changes including Labtests. It also highlights changes to other community services (e.g. radiology, Family Planning, POAC) and health programmes (e.g. National Screening, Immunisations). This page is updated as information comes to hand.

Tips & Tricks

We have a new mobile-friendly option that automatically formats our HealthPathways to be more easily viewed on portable devices.

Click on "TRY MOBILE-FRIENDLY" located at the top of the Home page or click on "mobile-friendly" located at the bottom of every pathway.

New and Recently Localised Pathways

[Toothache](#)

This new pathway provides guidance on the likely causes of toothache by type of pain and options for pain relief. In addition, it discusses the limited role of oral antibiotics, which antibiotics to use, and that intravenous antibiotics are not indicated for dental abscess. The pathway also suggests possible sources of assistance if cost is a barrier to accessing dental care.

[Contraceptive Implant](#)

This pathway has been updated to include Jadelle-specific guidance. Auckland-specific training information, consent documentation and a post-insertion advice sheet have been included.

[Soft Tissue Lumps in Adults](#)

This pathway is about soft tissue lumps in the trunk and limbs, with the aim of detecting sarcoma.

[Fontanelle Development](#)

[Varicose Veins and Chronic Venous Insufficiency](#)

[Developmental Dysplasia of the Hip \(DDH\)](#)

[Psychosis in Children and Youth](#)

[Bronchiectasis](#)

[Post-Traumatic Stress Disorder \(PTSD\)](#)
