

# Online UPDATE

Red Whale

the Goodfellow Unit presents Red Whale's GP Update

**WEBINAR series 7.30pm weekly: 2, 9, 16 and 23 September 2020**

## Red Whale in extraordinary times

Red Whale is a comprehensive update for primary health care professionals: GPs, Primary Care Nurses, Nurse Practitioners, Pharmacists. Our GP's do all the legwork to bring you up to speed on the latest evidence and guidance.

This year is different from any other, and we want to make it easy and safe for you to stay fully up to date, so Red Whale 2020 is being presented as a webinar series over 4 nights in September.

We have 'chapterised' the content into webinar-length segments and have arranged for NZ specialists to be online with us to answer all your tricky questions.

## Register for 2020 Red Whale Webinar Series

For just \$300 you will receive:

- Four nights of webinars, hosted by our GP presenters.
- Presentations from our UK GP partners.
- Every webinar will have NZ specialists standing by for your questions.
- 6 hours of practice changing updates, and 6 CPD points (RNZCGP).
- A handbook of 324 well written pages covering everything from A to Z in primary care, couriered to you before the first webinar.
- 12 months free subscription to the gpcpd website. With three times the content of the handbook, this online resource is a comprehensive tool that can even be used in consultations.
- Ongoing access to webinar archives of the series.

This webinar series is for GPs, primary care nurses, nurse practitioners, nurse prescribers, pharmacists: anyone who wants to keep up to date across the whole field of primary care.

We look forward to you joining us during September for some stay at home CPD.

Kind regards

Team Red Whale at Goodfellow
